Based in South Florida

Summary of Qualifications

Senior technology executive with 30+ years of progressive leadership in enterprise IT, cybersecurity, and digital transformation across domestic and international business. Proven record building and scaling secure, cloud-based infrastructure, modernizing enterprise systems, and aligning technology strategy with business objectives to drive growth, resilience, and measurable cost savings, with core strengths in enterprise architecture, data security and governance, vendor and budget management, and process optimization — and increasingly leveraging AI and automation to streamline operations and support decision-making. A collaborative, business-focused leader who builds high-performing teams and partners with executive leadership to turn emerging technology into lasting competitive advantage.

Core Competencies

Technology Leadership: IT strategy, digital transformation, enterprise architecture, budgeting & cost optimization, vendor management, M&A systems integration
Infrastructure & Cloud: Microsoft Azure, Office 365, enterprise data centers, virtualization, storage/SAN, network & voice, disaster recovery
Security & Compliance: cybersecurity, data protection & governance, Sarbanes-Oxley (SOX) and related compliance frameworks, change control, business continuity
Data & Emerging Tech: AI & automation, ERP, eCommerce, process improvement, decision-support & analytics

Professional Experience

04/2023 – Present esVolta, LP Newport Beach, CA

Head of IT

Lead all IT strategy and operations for a fast-scaling independent power producer developing and operating utility-scale battery energy storage projects across the U.S. (~35 GWh pipeline; $1B+ raised since 2017).

- Direct the full technology ecosystem — enterprise systems, cloud infrastructure, cybersecurity, and vendor management — delivering reliable, compliant, and scalable operations across a rapidly growing organization.
- Partner with executive leadership to set and execute long-term technology strategy that modernizes infrastructure and strengthens data security.
- Embed AI and automation into IT operations and business workflows — from process automation to decision-support tools — improving efficiency and accelerating digital transformation.

10/2016 – 07/2022 Life Extension, Inc Fort Lauderdale, FL

Director of Technology

Directed all technology for this direct-to-consumer health and wellness company — applications, enterprise infrastructure, data centers, cybersecurity, and disaster recovery — leading a team of engineers and service desk staff.

- Renegotiated vendor and partner contracts to save over $200K in the first year — fully offsetting the cost of the role — with recurring savings thereafter.
- Stabilized failing systems that were disrupting the business, restoring reliability by re-engineering the environment and establishing a multi-year technology roadmap.
- Led engineering across network, systems, infrastructure, voice, and database domains supporting eCommerce, contact-center, and back-office operations on Microsoft, Azure, and Office 365.
- Strengthened data security, protection, and compliance through improved monitoring, backup, and disaster-recovery capabilities.

01/2003 – 07/2016 GEO Group, Inc Boca Raton, FL

Vice President, Chief Information Officer

Provided global IT leadership for a $2B+ multinational corporation, owning strategy, security, and operations for information systems across 120+ locations, with a staff of 100+ spanning corporate IT, regional directors, and field specialists.

- Built and led the enterprise IT organization, establishing company-wide policies, standards, Sarbanes-Oxley (SOX) internal controls, change control, and disaster recovery.
- Established an Executive Steering Committee and Project Management Office (PMO) to prioritize technology investments by business case, ROI, and resource impact.
- Delivered a global ERP implementation and a portfolio of enterprise systems — inmate tracking, help desk, time & attendance (Kronos/TeleStaff), and Hyperion — alongside multiple cloud platforms to support aggressive company growth.
- Designed and built data centers in the U.S., U.K., and Australia with redundant connectivity to U.S. headquarters.
- Led IT integration and consolidation for five major acquisitions, including Cornell Companies, BI Incorporated, and Correctional Services Corporation.

05/1998 – 01/2003 Sports Authority, Inc Ft Lauderdale, FL

Director, Information Technology

Led IT strategy and operations — network operations, PC support, content networking, and store and distribution-center technology — including project planning, ROI analysis, and budgeting.

- Implemented a Trade Allowance Management system, saving over $1M per year in reclaimed manufacturer funds.
- Deployed a Vendor Compliance system that recovered $2M per year in vendor reimbursements.
- Partnered with Loss Prevention on a point-of-sale audit tool, recovering $500K+ per year.
- Migrated remote employees from dial-up to VPN, improving productivity and cutting $60K per year in long-distance costs.
- Improved company-wide network performance and stability by migrating servers to an enterprise Storage Area Network (SAN).

05/1997 – 05/1998 Sunglass Hut International Coral Gables, FL

Manager, Network Applications

- Built and launched the company's in-house eCommerce platform and corporate website, migrating both from third-party hosting to fully internal management.
- Delivered enterprise reporting and secure remote connectivity for Loss Prevention and 200+ field users across U.S., U.K., and Australia offices.
- Led emerging-technology projects and application support across corporate, distribution-center, and international sites.

1994 – 1997 Blockbuster Entertainment Ft. Lauderdale, FL

Manager, International Systems

- Supported POS systems across ten countries and trained IS managers for each market, enabling the launch of seven new international franchise markets in 18 months.

1989 – 1994 Blockbuster Entertainment Dallas, TX

Computer Support Supervisor

- Supervised a 10-person support team serving 3,500 domestic and 1,200 international stores, and established a London support center serving 800+ U.K. stores.

1986 – 1989 Blockbuster Entertainment San Antonio, TX

Store Manager/New Store Coordinator

- Managed a $1M+ super-store and, as a selected New Store Coordinator, facilitated new-store openings.

Education

San Antonio College
B.S., Computer Science and Electrical Engineering

Volunteer

Food Distribution Volunteer, Long Beach Food Bank 2025

- Coordinated food distribution from the main distribution warehouse to families in need.

Board of Directors/Treasurer – West Broward Chorus Booster Club, 2021 – 2024

Member – West Broward Performing Arts Booster Club, Jul 2021 – 2024

Board of Directors/Vice President and Volunteer Secretary
West Broward Performance Ensemble Boosters, Inc. Jul 2017 – Jun 2021

Partnered with parents, educators, and staff to manage funding, events, competitions, and volunteer coordination for an award-winning 5A performance ensemble and music program; held Broward County Public Schools Level 2 security clearance. The program earned multiple state

championships (2017–2019) and was the only Broward school authorized to perform live during the pandemic — with no incidents or infections.

Disaster Relief Volunteer, Service International, Inc. 2013

- Disaster and humanitarian relief — built shelters for families displaced by a major tornado.
